

HOW WE'RE BEING TALKED ABOUT

COLLEGES

“I am a Senior Resident Assistant at the University of Northern Colorado. I'm very impressed by your mission and would love to spread the word about living a healthy sexual lifestyle. Could I have materials for 400+ students that live in my residence hall? ***This info is vastly important for college students!*** Thanks and I look forward to helping Beforeplay.org grow and reach out to more students.”

“I was tabling one afternoon and had a student pass by to ***check out the stickers we were giving away.*** Before that day she had never known where to go to find any information about sexual health, the kind of information she wanted as a young adult.”

PUBLIC HEALTH

“The other night, people were grabbing the notecards with STD facts and showing each other at a rafting company function. Today, I'm going to reach out to our local college and hope that we have good response! I just gave another napkin and coaster delivery to one of our bars. I love the response. ***The folks in my community love your resources***...Thank you!”

“Hello, we are requesting condoms to hand out at clinics and outreach services. We distributed 4,000 over the past year, including at halfway housing, homeless shelters, bars, and more. ***We will gladly use any of the Beforeplay.org resources you can send us.*** We are bringing the site information as a public health preferred site for ***young people to access 'good' information about sexual health.***”

SOCIAL SERVICES PROGRAMS

“I provided a one-hour chat to women in the Crossroads Safehouse Shelter in Fort Collins and am now set to do this every 6 weeks. Although there were some older women and many of them already parents, ***they stated that the information was the most useful they'd gotten in the group*** (lots of info about low/no cost clinics, birth control a partner can't try to control, long acting methods, etc.)”

COMMUNITY OUTREACH

“A young women proclaimed to us that IUDs are “horrible.” I started talking to her about IUD facts and my own use of an IUD, where some of those myths come from and how today's IUDs are safe for most women. ***I directed her to our site with testimonial videos of real women using the IUDs.*** She really seemed to have a ***change of heart*** and said she'd look into it more.”

“I did outreach today at Mexican restaurants in Westminster and they have been very receptive. ***There seems to be little to no taboo*** around having a sexual health campaign materials posted in the restaurant.”

BARS & NIGHTLIFE

“We'd love to receive another round of 2,000 coasters each location. ***They are a hit with our customers.*** Thanks.”

PARENTS

“Awesome job! Caught an ad on TV this morning that prompted me to check out your website. As the parent of a high-schooler, I want to say ***thanks for getting this information out there.***”
